

Medical Terminology

This **Medical Terminology** course is designed to help students learn medical terminology easily and quickly, **online and in-person**.

No previous knowledge of medical terminology is required.

The course uses a body-system approach to learning medical terms. Students will learn common anatomical roots, suffixes, and prefixes, the proper way to analyze terms, build medical words, basic body organization and the fourteen body systems.

Students have the flexibility to learn at their own pace with a requirement of two 30-hour sessions (a total of 60 hours) and may choose to complete all assignments and tests online or to attend in class sessions. For course completion, students must meet all competencies.

Session Length: 30 Hours, 10 weeks

Winter Session:	1/14 to 3/18/2025
Spring Session:	4/8 to 6/10/2025

In-Person classes meet Tuesdays, 5-8 pm in room 207

Course Costs

\$125 session fee

\$10 annual registration fee
